

**OPEN POSITION: ELECTRICAL PROJECT ENGINEER****REFERENCE ACTIVITY**

The resource will be trained by the department manager in the knowledge of company design standards and in the use of the electrical design software “Eplan P8”. Initially, he/she will be in charge of updating post-test and post-start-up electrical diagrams and will then work independently on the design of electrical diagrams, followed by the relevant manager where necessary.

The resource will travel to the site if necessary to acquire the information required for the development of the electrical engineering or to correct the diagram on-site when the scope of work requires it.

The resource will take part in the training courses promoted by BM Group to deepen and improve their skills in the field.

**WORKPLACE**

- Borgo Chiese (TN, Italy)
- Brescia (BS, Italy)
- Rovereto (TN, Italy)

**REQUIRED TECHNICAL SKILLS**

- Willingness to acquire new knowledge in automation and robotics.
- Good knowledge of the English language.
- Willingness to make occasional trips around Italy and abroad.
- Diploma and/or degree in electronics, electrical engineering, industrial automation.
- Excellent knowledge of the fundamentals of electrical engineering (single-phase system, three-phase system, transformers, motors).
- Fundamentals of plant engineering (dimensioning of LV lines, dimensioning of LV protections).
- Good knowledge of standard symbology used in electrical diagrams.
- Good knowledge of technical drawing in the electrical field.
- Good knowledge of sensors for industrial automation (photocells, encoders, proximity).
- Basic knowledge of power electronics.
- General knowledge of industrial networks.
- Good knowledge of the Office package (especially Word and Excel).

## WELCOMED TECHNICAL SKILLS

- Knowledge of Autocad LT design software.
- Knowledge of Eplan P8 and/or IGE+XAO/Smart design software or similar.
- Knowledge of the fundamentals of automatic control techniques.
- Fundamentals of PLC programming and Ladder/KOP language.

## WHAT WE OFFER

- Integration into a solid and rapidly growing international group with 30 years of experience in innovation, technology, and energy.
- Opportunity to grow and improve the job position, aspiring over the years to acquire responsibilities within the company.
- Opportunity to take part in innovative research and development activities.
- Job posting also on foreign branches (USA, Mexico, Brazil, South Korea).
- Technical, linguistic, and managerial training.
- Opportunity to travel and meet new people from different linguistic and cultural backgrounds.
- Shared apartment/hotel for non-residents during any training/work periods at the Borgo Chiese headquarters.
- Equipment: Smartphone and PC.

## OUR COMPANY

**Polytec**, core business of BM Group, is a leading Italian company in digital transformation and energy transition.

**BM Group** is an Italian industrial group that combines companies with different specialisations that share a common goal: to enable industry to undergo the technological transformation necessary to become a smart and sustainable factory. The BM Group team is young, dynamic, and constantly collaborates with research centres and universities. For each new figure included in our staff, an induction programme is defined in the hiring phase in accordance with experience and skills. We organise and promote training courses with a view to continuous improvement.
