

OPEN POSITION: FULL STACK DEVELOPER

REFERENCE ACTIVITY

The resource will be part of the development team that deals with the implementation of high-level software solutions.

The resource will be responsible for:

- development of Desktop, Web and Mobile softwares, implementation of relational and non-relational databases
- participating in the testing that is carried out at the company headquarters
- follow the commissioning, on-site or remotely, for the part of skills and training of the customer's personnel

The head of the department will take care of duly training the person regarding the knowledge of the company development standards. The Desktop, Web and Mobile applications will be installed in the industrial sector, for "Level 2" applications, MES, or to collect, track and display data on local servers or on Cloud platforms. They interface with PLC, Robot and Computer Vision software for the acquisition and interchange of data, via industrial network protocols

The resource will take part in the training courses promoted by BM Group to deepen and improve their skills in the field.

- Knowledge of non-relational database (NoSQL) implementation and querying is preferred.

WHAT WE OFFER

- Integration into a solid and rapidly growing international group with 30 years of experience in innovation, technology, and energy.
- Opportunity to grow and improve the job position, aspiring over the years to acquire responsibilities within the company.
- Opportunity to take part in innovative research and development activities.
- Job posting also on foreign branches (USA, Mexico, Brazil, South Korea).
- Technical, linguistic, and managerial training.
- Opportunity to travel and meet new people from different linguistic and cultural backgrounds.
- Shared apartment/hotel for non-residents during any training/work periods at the Borgo Chiese headquarters.
- Equipment: Smartphone and PC.

OUR COMPANY

Polytec, core business of BM Group, is a leading Italian company in digital transformation and energy transition.

BM Group is an Italian industrial group that combines companies with different specialisations that share a common goal: to enable industry to undergo the technological transformation necessary to become a smart and sustainable factory. The BM Group team is young, dynamic, and constantly collaborates with research centres and universities. For each new figure included in our staff, an induction programme is defined in the hiring phase in accordance with experience and skills. We organise and promote training courses with a view to continuous improvement.
